# Everyone is different

And at the San we see every dimension of the person. We know there's more to wellness than physical health – so we take care to address the emotional, social and spiritual facets of patient care too.

## San Cancer Services

We have consistently been renowned for excellence in multidisciplinary cancer care. Our whole person approach to health is one way the San is unique.

For the sixth year in a row, the San Integrated Cancer Centre topped the State in the annual Outpatient Cancer Clinics Survey conducted by the Bureau of Health Information (BHI) in partnership with the Cancer Institute NSW, confirming our status as a leading centre for patient experience and cancer outcomes.

## Excellence in Prostate Cancer Care

At the San we focus on delivering excellent outcomes for patients through research, advanced technology and infrastructure, having leading experts and providing seamless clinical services.

A national reputation for prostate MRI and PSMA PET-CT/PET-MRI imaging and delivery of artificial-intelligence-driven adaptive prostate radiotherapy are supported by our comprehensive multidisciplinary team. Prostate cancer nurses and patient navigators plus extensive allied health services also play a vital role in caring for our patients.

# Integrated Imaging Services

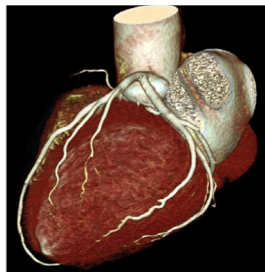

## Maximising referrer confidence and patient care

San Radiology & Nuclear Medicine (SRNM) is a well-recognised leader in the provision of comprehensive diagnostic and nuclear imaging, theranostics and interventional radiology services, performing more than 97,000 examinations and procedures a year. SRNM provides both hospital and community based imaging services across three locations.

SRNM is particularly well known for our breast, prostate and cardiac imaging programs which extend across both diagnostic and nuclear/PET streams with subspecialty reporting. Our comprehensive suite of 'new generation' imaging equipment enables us to provide world-class imaging services for our patients and referring doctors.

Our team of highly experienced and dedicated Radiologists, Nuclear Medicine Physicians / Specialists, Radiographers, Sonographers, Nurses, Nuclear Medicine Technologists, Secretaries and support staff are committed to delivering high quality and personalised care for our patients.
